YOU DO!!!**

# ABOUT AIBU INNOVATIONS LIMITED

## Who we are

AIBU Innovations Limited is a Zambian company which is wholly owned by Zambians, the principal line of business is Professional Civil Engineering business that provides clients with expertise and innovative solutions in Civil & Structural Engineering, Engineering Project Management, Building Construction, Property development ,Plant Hire services, Agriculture Logistics, Finance, Energy, Stationary Supply, Office Furniture Supply And General Supply for both public and private sector clients.

The company was registered in June 2024 and has its head office in Lusaka Zambia off Chisankane Road, New Kasama. The company offers a unique framework of knowledge, expertise, experience and human resources.

In recent years the importance of local empowerment schemes has become paramount when tendering for government projects. AIBU Innovations Ltd is committed to sourcing local labourers and partnering with small contractors to meet the needs of their principal contractors and the broader economic community.

## Our Vision

To be a regional market leader in Construction, mining, agriculture, logistics, energy, finance, stationary supply, office furniture supply and general supply.

## Our Mission

We aim to be a world class Company, providing efficient, affordable, sustainable, cost effective, services of highest level of quality.

# Our Values

## Our Approach

AIBU Innovations is committed to the highest standards of environmental protection throughout all phases of construction by upholding the basic principles of environmental management, for which there is a comprehensive plan in place. We fully acknowledge a moral and legal responsibility for the safeguarding of the environment and the well-being of all those affected by the Company's construction activities. Beyond this we are also mindful of how people interact with structure in the environment and always seek to green our projects at their conclusion. Our social responsibility efforts focus on environmental initiatives that preserve and grow a better tomorrow for communities.

## OUR BELIEVE IN COMMUNITIES

AIBU Innovations recognizes the major role it plays in the communities within which it operates and as such, works in partnership with local communities, highly respected local supply chain partners, subcontractors and the public sector, who share AIBU's vision of broad-based empowerment and transformation. The company also supports local employment initiatives and ensures that all contractual empowerment targets are met.

## Sub-Contractor Management

Municipalities and state-owned enterprises have increasingly introduced Participation of Local Contractors, which are mandatory requirements in their tender documents that requires that contractors must sub-contract to local emerging companies. As a result, large contractors need to develop mechanisms to manage these small contractors and transfer skills.

AIBU Innovations provides peace of mind for the principal contractor by providing sub-contractor management services on behalf of the principal contractor, and ensuring that sub-contractors produce quality work timeously and within budget.

AIBU Innovations manages local sub-contractors on their behalf and mitigates the risks associated with working with inexperienced contractors in communities.

## Plant Hire and Earth Work Services

AIBU Innovations offers a comprehensive plant hire service, providing machinery such as excavators, bobcat and tip trucks for the construction and road building industries. All plant is supplied with experienced capable operators, who are dedicated to providing reliable and cost-effective earthworks solutions. We always take safety as a priority.
